REMINDERS

Retrieving forgotten items from classrooms after school hours is difficult as we don't always have the staff to accompany your child. For homework, please check Google Classroom, as well as keeping peer contact information on hand to get information needed instead.

REMINDERS

Retrieval of lost & found items after school is easier to manage because the daycare staff can accompany or assist. Please label your child's clothing. Many items are left out at recess and we cannot return items if we don't know who they belong to.
